

NORDCHAIN SINCE 1936

TRUCK

NORDCHAIN studded truck chains are made from hardened micro boron alloy steel which provides high wear resistance. The variety of sizes and stud patterns offered contribute to their constant grip and comfortable drive.

**GRIP +8 CAM 8MM
TRIPLE STUDDED ▼**

An 8mm twisted chain with two standing studs per link.

**GRIP +8 CAM 8MM
SINGLE STUDDED ▼**

An 8mm twisted chain with two standing studs per link.

**SUPERTWIST 7 TRIPLE
7MM 6 LINK STUDDED ▲**

A 7mm twisted chain with two standing studs per link.

**GRIP +Z8 8MM ►
TRIPLE STUDDED**

An 8mm twisted chain with two standing studs per link. This gives a very good grip both lengthways and sideways.

NORDCHAIN

HARVESTER/FORWARDER

SUPERSTUD 160TS

Superstud 160TS (16mm) has an additional tension chain for superior fit on the tire walls giving extra protection against sharp rocks and stumps, and its case hardened micro boron alloy steel provides high wear resistance. Superstud 160TS provides excellent grip thanks to 19mm welded u-studs.

NORDCHAIN is the new brand name for the same products that have been produced since 1930, formerly known as Gunnebo. A recent change in ownership has brought brands like Nordchain, OFA, Tellefsdal and Clark Tracks under the same umbrella called Nordic Traction. Now with a new partnership between Nordic Traction and Wallingford's Inc., these high quality products have become available through dealer distribution all across North America. Today, NordChain product lines offer proven quality and are characterized by outstanding traction and long service life, as well as good fit and overall performance.

SKIDDER

SUPERSTUD 160 & 190

Superstud 160 and 190 provide excellent grip thanks to 19mm welded u-studs. Case hardened, micro alloy boron steel gives high wear resistance. Superstud 160 is a 16mm chain and is available in a variety of diamond pattern options. Superstud 190 is a 19mm chain and is available in double and triple pattern options.

SKOGSGRIP 160 & 190

Skogsgrip is an open, one diamond style chain with particularly good self-cleaning properties. Excellent grip thanks to 19mm welded U-studs and very easy to mount on the tire. Case hardened, micro boron alloy steel provides high wear resistance.
